Dear Partners and Supporters,

As Chair of the Scientific Committee for the ONE H Congress 2026, it is with great enthusiasm that I invite you to join us in June 2026, for what promises to be a landmark international event in the field of One Health.

The challenges facing our world today—emerging diseases, climate change, biodiversity loss—are deeply interconnected. Addressing them requires new partnerships, integrated solutions, and cross-sector collaboration. This is exactly what the ONE H Congress is designed to foster.

With your support, the 2026 edition will go beyond academic exchange: it will be a catalyst for action. We will bring together leading scientists, institutions, and decision-makers to explore how to operationalize One Health in policy, research, and practice. Our goal is not only to advance science, but to shape real-world strategies that can improve the health of people, animals, and ecosystems.

By becoming a sponsor, you position your organization at the heart of this movement. You'll gain high visibility among global health leaders, contribute to shaping sustainable solutions, and be recognized as a key player in one of the most important conversations of our time.

We are excited to welcome sponsors who share our vision and are ready to invest in a healthier, more resilient future.

I look forward to the opportunity to work together and to welcoming you to Saint-Quay-Portrieux in 2026.

With warm regards,
Dr. Nicolas Rose
Chair, Scientific Committee
ONE H Congress 2026

Congress Organizers

The congress is organized by ANSES, INNOZH and LABOCEA, renowned as major players in their respective fields.

Scientific Committee

Chair: Nicolas ROSE, ANSES

Promotion

The OneH Congress communication strategy has been given a fresh new momentum, with a renewed visual identity and a dedicated website to support its outreach.

For its 2025 edition, the congress introduces a new website and strengthens its presence on LinkedIn, supported by a newsletter that shares key updates and highlights with the community.

A congress rooted in Brittany, on the shores of Côtes-d'Armor

Set on the coastal edge of Saint-Quay-Portrieux in Brittany, where rugged cliffs meet rolling countryside, OneH offers more than a scientific gathering — it's an experience rooted in nature, innovation, and connection.
