

International Congress on One Health 2026

3–5 June 2026 · Saint-Quay-Portrieux, Brittany, France

Detailed Programme

Keynote Speakers

Name	Role & Institution	Session
Hélène Soubelet	Director <i>French Foundation for Research on Biodiversity (FRB), France</i>	<i>Session 1 One Health Effects of Changes</i>
Reina Sikkema	Researcher <i>Erasmus Medical Centre Rotterdam, The Netherlands</i>	<i>Session 2 Integrated surveillance & One Health indicators</i>
Amélie Desvars-Larrivé	Associate Professor <i>University of Veterinary Medicine Vienna & Complexity Science Hub, Austria</i>	<i>Session 4 New Tools & Integrated Data to Meet One Health Challenges</i>
Koen Mintiens	International OH Consultant <i>VEN40, Belgium</i>	<i>Session 5 Implementing the One Health Transition: Socio-economic & Research Perspectives</i>

Full Programme

DAY 1

Wednesday, June 3 · Day 1

Afternoon sessions + Welcome cocktail reception

14:00

OPENING

Welcome & Introduction

Opening address by Nicolas Rose

Scientific Committee President · ANSES, France

Welcome from the co-organising institutions: INNOZH · Anses · Labocéa

14:15

ADDRESS

Barbara Alessandrini

Head, Capacity Building Department · World Organisation for Animal Health (WOAH), Senegal

As a core pillar of the One Health Quadripartite (with WHO, FAO and UNEP), WOAH drives global policy on zoonoses, antimicrobial resistance and wildlife health across 182 member countries.

14:50

ROUNDTABLE

One Health in Practice

How is One Health structured across research, expertise, education and policy?

Moderated by Anne-Françoise Berthon — One Health Programme Officer & International Scientific Advisory Board, Anses (France)

With:

- Benoit Miribel, One Sustainable Health Forum
- Carlos Das Neves, EFSA
- David Alis, Rennes University
- Renato de Amorim, CEVA
- Serge Morand, CNRS

An open dialogue exploring operational frameworks, interagency coordination and the future of cross-sectoral governance.

15:40

KEYNOTE

Hélène Soubelet

Director · French Foundation for Research on Biodiversity (FRB), France

Session 1

One Health Effects of Changes

From One Health to the Nexus, IPBES' proposal to best address the interdependent challenges of biodiversity, climate, food, health and water

CHAIR Serge Morand — University of Montpellier, France

16:35

BREAK

Coffee break & poster viewing

Explore the poster exhibition and connect with presenters.

17:10

SESSION 1

Oral Communications · 4 presentations

Selected abstracts — Session 1: One Health Effects of Changes

CHAIRS Hélène Soubelet — FRB (France) & Serge Morand — University of Montpellier (France)

1. Impacts of a realistic coastal climate change scenario on the immune responses of juvenile European seabass (*Dicentrarchus labrax*) – Sylvain Jodet (France)
2. Treated wastewater irrigation and pathogen dissemination across the food chain and environment: A One Health study of *Clostridioides difficile* – Alexandre Mrozinski (France)
3. Aging micro-bioplastics in Simulated Lagoon Conditions Promotes the Enrichment of Antibiotic Resistance Genes and Pathogenic Bacteria in the Plastisphere – Eloisa Toscan (Italy)
4. One health beyond infectious diseases: unraveling the impacts of gold mining in the Ecuadorian Amazon - Mahmoud Hashoush (France)

19:15

EVENING

Welcome Cocktail Reception

Join all participants for an informal networking cocktail — a chance to connect with fellow researchers, speakers and sponsors in a relaxed seaside atmosphere. All registered participants are welcome.

Thursday, June 4 · Day 2

DAY 2

Full day of science + Seaside Gala dinner

09:00

KEYNOTE

Reina Sikkema

Researcher · Erasmus Medical Centre Rotterdam, Netherlands

Session 2**Integrated surveillance & One Health indicators**

Transdisciplinary research approaches to study arbovirus dynamics on the human-animal interface.

CHAIR Béatrice Grasland — ANSES, France

09:55

SESSION 2

Oral Communications · 3 presentations

Selected abstracts — Session 2: Integrated surveillance & One Health indicators

CHAIRS Reina Sikkema — Erasmus MC (The Netherlands) & Béatrice Grasland — ANSES (France)

1. Active surveillance of individuals exposed to an outbreak of highly pathogenic avian influenza in France for the 2025/2026 season: strengths and challenges - Anabelle Gilg Soit Ilg (France)
2. Surveillance shapes perceived host range: a One Health analysis of SARS-CoV-2 detection in mammals - Anna Caroline Pontel De Almeida (Austria)
3. Circulation of rat hepatitis E virus (*Rocahepevirus rattii*) in populations of brown rats (*Rattus Norvegicus*) from 8 major French cities, 2021 to 2023 – Nicole Pavio (France)

10:45

BREAK

Coffee break & poster viewing

11:20

SESSION 2
· CONT.**Oral Communications · 3 presentations**

CHAIRS Reina Sikkema — Erasmus MC (The Netherlands) & Béatrice Grasland — ANSES (France)

4. Toxocara Eggs in Recreational Areas of Czechia: One Health Insights – Francan Ouma (Czech Republic)
5. Ticks and Tick-borne Pathogens in High-Footfall Areas in Luxembourg: Closing one of Western Europe's Surveillance Gaps – Aleksandra Krawczyk (Luxembourg)
6. Advancing One Health Surveillance: Lessons from Case-Control Studies of Human Antimicrobial Resistance – Chika Okafor (USA)

12:10

FLASH
TALKS

Poster Flash Presentations · 5 posters

3-minute presentation + 2-minute Q&A each

CHAIR Nicolas Rose — ANSES, France

High-quality posters selected by the Scientific Committee are presented live — fast-paced, impactful, not to be missed.

1. Prospective study of the impact of increased water temperature on the virulence of rainbow trout novirhabdovirus – Elise Gourhannic (France)
2. Capture-based metaviromics to describe viral diversity in contaminated oysters from coastal areas or implicated in outbreaks – Soizick Le Guyader (France)
3. Whole-Genome Sequencing of Livestock Rotavirus-A Highlights Human-Linked Genetic Lineages – Mouna Abed Zahar (France)
4. Comparative performance of eDNA sampling for vertebrate surveys in Cambodia – Pauline Van Leeuwen (Belgium)
5. Active surveillance for vector-borne diseases with citizen scientists in the Netherlands – and beyond – Henk Van Der Jeugd (The Netherlands)

12:45

LUNCH

Lunch Buffet

Lunch buffet · Poster viewing open

13:50

KEYNOTE

Amélie Desvars-Larrivé

Associate Professor · University of Veterinary Medicine Vienna & Complexity Science Hub, Austria

Session 4

New Tools & Integrated Data to Meet One Health Challenges

Beyond the buzzword: The real-world challenges of data integration for One Health

CHAIR Stéphanie Desvaux — OFB (Office Français de la Biodiversité), France

14:45

SESSION 4

Oral Communications · 3 presentations

Selected abstracts — Session 4: New tools & data integration

CHAIRS Amélie Desvars-Larrivé — Univ. Vet. Medicine Vienna (Austria) & Stéphanie Desvaux — OFB (France)

1. Fostering national One Health surveillance of antimicrobial resistance: experience from the EU-JAMRAI2 Joint Action – Servane Bareille (France)
2. A transdisciplinary One Health approach to understanding and preventing antimicrobial resistance in the metropolitan area of Lyon, France – Lucie Collineau (France)
3. Building a European database linking climate hazards to zoonotic disease impacts – Ana Maria Perez Arredondo (Austria)

15:35

BREAK

Coffee break & poster viewing

16:10

SESSION 3

REGULAR

Oral Communications · 7 presentations

Session 3 — One Health Solutions and Success Stories

What are the obstacles to implementing One Health? Successful stories and practical solutions from the field of infectious, vector-borne and foodborne diseases.

CHAIRS Nicolas Eterradossi — ANSES (France) & Bruno Lina — Université Claude Bernard Lyon 1 (France)

1. Barriers and lessons learnt from active surveillance pilots for zoonotic influenza virus infections in humans in Denmark - Gudrun Witteveen-Freidl (Denmark)
2. Integrated genomic surveillance of *Salmonella Choleraesuis* var. Kunzendorf across wild boars, domestic pigs and humans in Northeastern Italy, 2011-2025 – Laura Bortolami (Italy)

3. Development and integration of *Leptospira* genotyping in environmental, animal and human surveillance: a New Zealand perspective – Marie Moinet (New Zealand)
4. Building collective intelligence to understand scrub typhus risk: a participatory mapping integrating expert knowledge within One Health framework in northern Thailand – Nolwenn Blache (France)
5. RADAR-PPI: Identifying antimicrobial resistance needs and innovative solutions across animal and environmental sectors – Luis Lucena Bazea (France)
6. Implementation of the 'One Health' approach within the French administration, a driver of innovation in managerial and organisational practices and interministerial synergies in Côtes d'Armor – Amandine Gautier, Claude Le Quéré, Florence Ayrat (France)
7. Environmental and nutritional improvements in agricultural practices and animal diets enhance nutritional quality of women breastmilk: a human "One Health" randomized, clinical study – Pauline Jagoudet (France)

18:00

FLASH
TALKS

Poster Flash Presentations · 5 posters

3-minute presentation + 2-minute Q&A each

CHAIR Mouna Abed Zahar — Labocéa, France

1. Major HPAI epizootic on cranes in 2025: OneHealth challenges and management issues – Béatrice Grasland (France)
2. Evaluation of the impact of the ALERT serious game on knowledge acquisition and stakeholder engagement in zoonotic disease surveillance – Mathias Talla Mba (France)
3. Strengthening Zoonotic Disease Recognition: Nationwide Tularemia Training Outcomes Among Georgian Medical Professionals - Giorgi Chakhunashvili (Georgia)
4. HODAS project: Leveraging host population data for enhancing surveillance – Mathieu Andraud (France)
5. Construction of an integrated data collection network in the context of multi-hosts zoonoses persistence communities – Alexis Peutot (France)

20:00

GALA
DINNER

Seaside Gala Dinner

An unforgettable evening at an exclusive seaside venue in Saint-Quay-Portrieux. Savour the finest Breton cuisine with live music, a photobooth, and the sound of waves.

No dress code

Ticket included in registration · Venue: privatised seaside location, Saint-Quay-Portrieux

Friday, June 5 · Day 3

DAY 3

Morning sessions · Awards · Closing

09:00

KEYNOTE

Koen Mintiens

International One Health Consultant · VEN40, Belgium

Session 5

Implementing the One Health Transition: Socio-economic & Research Perspectives

From Paradigm to Practice: Making One Health Work

CHAIR Florence Ayrat — VetAgroSup Lyon, France

09:55

SESSION 5

Oral Communications · 3 presentations

Selected abstracts — Session 5: One Health transition

CHAIRS Florence Ayrat — VetAgroSup Lyon (France) & Koen Mintiens — VEN40 (Belgium)

1. Reverse zoonosis of human influenza viruses in pigs: implications for animal health and zoonotic risk – Séverine Hervé (France)
2. Strengthening Communication between Veterinary and Public Health Authorities for Zoonotic Influenza Surveillance in Austria – Elena Lucia Sassu (Austria)
3. Making scientific and local knowledge actionable to support the implementation of the One Health theory of change – Emmanuel Roux (France)

10:45

BREAK

Coffee break & poster viewing

11:20

SESSION 5
· CONT

Oral Communications · 2 presentations

CHAIRS Florence Ayrat — VetAgroSup Lyon (France) & Koen Mintiens — VEN40 (Belgium)

4. The One Health Landscape of Antibiotic Stewardship: What Works, What Hinders, and What's Next – Marion Bordier (France)
5. Evolution of intention and vector-control behaviors during the tiger mosquito activity season – Irène Freyssinet (France)

11:55

AWARDS

Prize Ceremony

Best poster awards and recognition of outstanding scientific contributions.

Prizes awarded by the Scientific Committee.

12:15

CLOSING

Closing Remarks

Gilles Salvat, Deputy Director General for Research & Reference, Anses, France

Summary of scientific highlights · Perspectives for the One Health community

Practical Information

Venue	Centre de Congrès de Saint-Quay-Portrieux 10 Bd du Général de Gaulle, 22410 Saint-Quay-Portrieux, Brittany, France
Transfers	To facilitate your travel to and from the congress, free shuttle services will be available between key locations and the conference venue. Our shuttle services include: Transport from Saint-Brieuc Railway Station to Congress center on arrival and departure day (June 3 and 5, 2026). Daily shuttles between Meeting points and Congress Center in Saint-Quay-Portrieux.
Registration fees	Students: €350 TTC (valid student ID required) Late (after 1 May 2026): €630 TTC Gala Dinner: included in full registration
Presentation formats	Oral communications (10 min + Q&A) Flash Talks (3 min + 2 min Q&A) Poster sessions
Language	All sessions and presentations are in English.
Contact	onehcongress@innozh.fr
Event organisers	INNOZH Anses (French Agency for Food, Environmental and Occupational Health & Safety) Labocéa
