

# International Congress on One Health 2026

3–5 June 2026 · Saint-Quay-Portrieux, Brittany, France

## Participant Programme

### Field crossing to accelerate the One Health Transition

The ONE H Congress 2026 is a global scientific forum dedicated to advancing the One Health approach through interdisciplinary collaboration. It brings together researchers, experts, and practitioners from human, animal, and environmental health sectors to address complex health challenges at the interface of ecosystems, species, and societies.

Building on the foundation laid by the inaugural 2024 edition, the 2026 Congress will focus on translating the One Health concept into concrete action. The goal is to accelerate a meaningful One Health transition through evidence-based strategies, cross-sectoral innovation, and scientific collaboration. We look forward to insightful debate on the practical implementation of One Health.

Whether you're engaged in research, policy, or field implementation, this congress represents a not-to-be-missed opportunity to shape the future of One Health.

Dr. Nicolas Rose  
Chair, Scientific Committee

### Keynote Speakers

Name	Role & Institution	Session
<b>Hélène Soubelet</b>	Director <i>French Foundation for Research on Biodiversity (FRB), France</i>	<i>Session 1 One Health effects of changes</i>
<b>Reina Sikkema</b>	Researcher <i>Erasmus Medical Centre Rotterdam, The Netherlands</i>	<i>Session 2 Enhanced integrated surveillance</i>
<b>Amélie Desvars-Larrivé</b>	Associate Professor <i>University of Veterinary Medicine Vienna &amp; Complexity Science Hub, Austria</i>	<i>Session 3 New tools &amp; integrated data</i>
<b>Koen Mintiens</b>	International OH Consultant <i>VEN40, Belgium</i>	<i>Session 4 Implementing the One Health transition</i>

## Wednesday, June 3 · Day 1

DAY 1

Afternoon sessions + Welcome cocktail reception

14:00

### OPENING

#### Welcome & Introduction

##### Opening address by Nicolas Rose

Scientific Committee President · ANSES, France

*Welcome from the co-organising institutions: INNOZH · Anses · Labocéa*

14:15

### ADDRESS

#### Baba Soumaré

Managing Director · World Organisation for Animal Health (WOAH), Senegal

*As a core pillar of the One Health Quadripartite (with WHO, FAO and UNEP), WOAH drives global policy on zoonoses, antimicrobial resistance and wildlife health across 182 member countries.*

14:50

### ROUNDTABLE

#### One Health in Practice

##### How is One Health structured across research, expertise, education and policy?

Moderated by Anne-Françoise Berthon — One Health Programme Officer & International Scientific Advisory Board, Anses (France)

With :

Serge Morand, CNRS

David ALIS , Rennes University

Carlos Das Neves, EFSA

Hein Imberechts, European One Health Association

Benoit Miribel, One Sustainable Health Forum

Renato de Amorim, CEVA

*An open dialogue exploring operational frameworks, interagency coordination and the future of cross-sectoral governance.*

15:40

### KEYNOTE

#### Hélène Soubelet

Director · French Foundation for Research on Biodiversity (FRB), France

*From One Health to the Nexus, IPBES' proposal to best address the interdependent challenges of biodiversity, climate, food, health and water*

#### Session 1

##### One Health Effects of Changes

*How do climate change, biodiversity loss, habitat destruction and human activities drive the emergence and re-emergence of infectious, vector-borne and foodborne diseases? Dr Soubelet presents the IPBES Nexus approach and makes the case for truly integrated, systemic responses.*

CHAIR Serge Morand — University of Montpellier, France

16:35

### BREAK

#### Coffee break & poster viewing

*Explore the poster exhibition and connect with presenters.*

17:10

### SESSION 1

#### Oral Communications · 4 presentations

Selected abstracts — Session 1: One Health Effects of Changes  
CHAIRS H el ene Soubelet — FRB (France) & Serge Morand — University of Montpellier (France)

19:15

**EVENING**

### Welcome Cocktail Reception

Join all participants for an informal networking cocktail — a chance to connect with fellow researchers, speakers and sponsors in a relaxed seaside atmosphere. All registered participants are welcome.

## Thursday, June 4 · Day 2

DAY 2

Full day of science + Seaside Gala dinner

09:00

**KEYNOTE**

### Reina Sikkema

Researcher · Erasmus Medical Centre Rotterdam, Netherlands

#### Session 2

#### Enhanced Integrated Surveillance: the Way Forward for One Health Indicators

Strategies for harmonising data collection, analysis and cross-sector sharing — and pathways to develop measurable One Health indicators that assess ecosystem, animal and human health in synergy.

CHAIR Sibylle Bernard-Stoecklin — Sant e Publique France, France

09:55

**SESSION 2**

### Oral Communications · 3 presentations

Selected abstracts — Session 2: Integrated surveillance & One Health indicators

CHAIRS Reina Sikkema — Erasmus MC (The Netherlands) & Sibylle Bernard-Stoecklin — Sant e Publique France (France)

10:45

**BREAK**

### Coffee break & poster viewing

11:20

**SESSION 2  
· CONT.**

### Oral Communications · 3 presentations

CHAIRS Reina Sikkema — Erasmus MC (The Netherlands) & Sibylle Bernard-Stoecklin — Sant e Publique France (France)

12:10

**FLASH  
TALKS**

### Poster Flash Presentations · 5 posters

3-minute presentation + 2-minute Q&A each

CHAIR Nicolas Rose — ANSES, France

High-quality posters selected by the Scientific Committee are presented live — fast-paced, impactful, not to be missed.

12:45

**LUNCH**

### Lunch Buffet

Lunch buffet · Poster viewing open

13:50

**KEYNOTE**

### Am elie Desvars-Larriv e

Associate Professor · University of Veterinary Medicine Vienna & Complexity Science Hub, Austria

*Beyond the buzzword: The real-world challenges of data integration for One Health*

	<p><b>Session 3</b>  <b>New Tools &amp; Integrated Data to Meet One Health Challenges</b>  <i>The promise of unified data versus the reality of fragmented systems. Drawing from concrete examples — global SARS-CoV-2 animal data, climate-sensitive disease prioritisation — Dr Desvars-Larrivé explores how AI, big data analytics and real-time surveillance can transform our ability to detect, predict and respond at the human–animal–environment interface.</i></p> <p>CHAIR Stéphanie Desvaux — OFB (Office Français de la Biodiversité), France</p>
14:45	<p><b>SESSION 4</b>  <b>Oral Communications · 3 presentations</b> Selected abstracts — Session 3: New tools &amp; data integration  CHAIRS Amélie Desvars-Larrivé — Univ. Vet. Medicine Vienna (Austria) &amp; Stéphanie Desvaux — OFB (France)</p>
15:35	<p><b>BREAK</b>  <b>Coffee break &amp; poster viewing</b></p>
16:10	<p><b>SESSION 3</b>  <b>REGULAR</b>  <b>Oral Communications · 7 presentations</b>  <b>Session 3 — One Health Solutions and Success Stories</b>  <i>What are the obstacles to implementing One Health? Successful stories and practical solutions from the field of infectious, vector-borne and foodborne diseases.</i></p> <p>CHAIRS Nicolas Etteradossi — ANSES (France) &amp; Bruno Lina — Université Claude Bernard Lyon 1 (France)</p>
18:00	<p><b>FLASH TALKS</b>  <b>Poster Flash Presentations · 5 posters</b>  3-minute presentation + 2-minute Q&amp;A each  CHAIR Mouna Abed Zahar — Labocéa, France</p>
20:00	<p><b>GALA DINNER</b>  <b>Seaside Gala Dinner</b>  <i>An unforgettable evening at an exclusive seaside venue in Saint-Quay-Portrieux. Savour the finest Breton cuisine with live music, a photobooth, and the sound of waves.</i>  <b>No dress code</b>  Ticket included in registration · Venue: privatised seaside location, Saint-Quay-Portrieux</p>

# Friday, June 5 · Day 3

DAY 3

Morning sessions · Awards · Closing

09:00

## KEYNOTE

### Koen Mintiens

International One Health Consultant · VEN40, Belgium

*From Paradigm to Practice: Making One Health Work*

## Session 4

### Implementing the One Health Transition: Socio-economic & Research Perspectives

*"From Paradigm to Practice: Making One Health Work" — How can social sciences help identify and overcome barriers to the adoption and scaling of One Health approaches? With decades of experience in animal health, AMR and cross-sectoral collaboration, Koen Mintiens highlights the operational tools, political will and soft skills needed to drive meaningful, sustainable change.*

CHAIR Florence Ayrat — VetAgroSup Lyon, France

09:55

## SESSION 4

### Oral Communications · 3 presentations

Selected abstracts — Session 4: One Health transition

CHAIRS Florence Ayrat — VetAgroSup Lyon (France) & Koen Mintiens — VEN40 (Belgium)

10:45

## BREAK

### Coffee break & poster viewing

11:20

## SESSION 4 · CONT.

### Oral Communications · 2 presentations

CHAIRS Florence Ayrat — VetAgroSup Lyon (France) & Koen Mintiens — VEN40 (Belgium)

11:55

## AWARDS

### Prize Ceremony

*Best poster awards and recognition of outstanding scientific contributions.*

Prizes awarded by the Scientific Committee.

12:15

## CLOSING

### Closing Remarks

Managing Director, Anses, France

*Summary of scientific highlights · Perspectives for the One Health community*

## Practical Information

<b>Venue</b>	Centre des Congrès de Saint-Quay-Portrieux 10 Bd du Gén de Gaulle, 22410 Saint-Quay-Portrieux, France
<b>Transfers</b>	To facilitate your travel to and from the congress, free shuttle services will be available between key locations and the conference venue.  Our shuttle services include: Transport from Saint-Brieuc Railway Station to Congress center on arrival and departure day (June 3 and 5, 2026). Daily shuttles between Meeting points and Congress Center in Saint-Quay-Portrieux.
<b>Registration fees</b>	Students: €350 TTC (valid student ID required) Late (after 1 May 2026): €630 TTC Gala Dinner: included in full registration
<b>Presentation formats</b>	Oral communications (10 min + Q&A) Flash Talks (3 min + 2 min Q&A) Poster sessions
<b>Language</b>	All sessions and presentations are in English.
<b>Contact</b>	onehcongress@innozh.fr
<b>Event organisers</b>	INNOZH Anses (French Agency for Food, Environmental and Occupational Health & Safety) Labocéa
